

PROJECT

# Dhofar University Multi Purpose Hall

## OVERVIEW

Client	Project Size (in sqm)	Project Location	Project Component
Dhofar University	2000 Sqmtrs	Salalah	Supply & Install Semi Sprung Maple Wooden Flooring For Multipurpose Hall

## PROJECT REMARKS

Dhofar University required a specialized flooring solution for their multipurpose hall that could accommodate both sports activities and cultural events. The flooring also needed to withstand the heavy loads imposed by the retractable seating system installed within the facility. KR delivered a customized solution using high-grade American Maple flooring supported by a specially engineered substructure. This system provides excellent cushioning for sports performance while safely supporting the substantial weight of the retractable seating, ensuring durability, flexibility, and long-term functionality.
